

**COP 4935 – Fall 2026**  
**Group A04 – Interactive Sheriff Activity Map of Lee County**  
**Meeting Notes**

**Date: September 10, 2026**

1. **Next Meeting:** In-Person meeting after class on Monday 9/14 to practice for the CDR presentation (will likely take 2-hours, possibly longer)
2. Discussed the status of data collection. Estimated time to collect the remaining data is 7 months. Phillip proposed requesting permission from the County to use additional devices.
3. Everyone discussed the progress they made on the sprint this week. Decided to set up the backend server to provide Khoa with access to the traffic data.
4. Discussed the draft outline for the CDR Group Presentation (see spreadsheet posted to Discord).

**Action Items:**

1. (Everyone) Create the presentation slides for the slides you'll be presenting. Refer to the presentation outline (posted on Discord). Please try to send your presentation slides to Phillip by Sunday night so he can combine the slides into a single file.
2. (Tolga) Set up a Digital Ocean LAMP stack for the web app and coordinate with Khoa to allow him to retrieve traffic data using the API. Phillip will pay Tolga \$20 as reimbursement for the Digital Ocean hosting charge.
3. (Everyone) Phillip will sketch up a draft version of the system pipeline diagram. Everyone should review and send markups if needed.
4. (Phillip) Email the County on Tuesday 9/15 to request permission to collect data with 10 additional devices.
