COP 4935 – Fall 2026
Group A04 – Interactive Sheriff Activity Map of Lee County
Meeting Notes

Date: October 26, 2026

1. Discussed schedule. Goal is to spend this week finalizing MVPs and then the following week doing user testing.
2. Group decided to implement a rectangular selection area that can be drawn by the user in order to meet the report MVP. State of the analysis maps, which will be inserted into the report, will be tracked by the frontend.
3. Asked each group member to indicate whether the following MVP items have been accounted for. Each group member is aware of the MVP items.
    i. Landing Page
    ii. Login/Authentication
    iii. UI Design
    iv. Map Views and Filtering
    v. Search Functionality
    vi. Cluster Feature
    vii. Heat Map Feature
    viii. Registered User Reports
    ix. Animation Feature
    x. Data Fetching
    xi. Data Sources
    xii. Normalization
    xiii. Deduplication and Storage
    xiv. Buffered Writes
    xv. Geocoding
    xvi. Deployment
4. Stretch Goal for intersection geocode isn't practical for the project. Stretch Goal for verifying that geocoded results are within the County boundary has been implemented. Stretch Goal for route score won't be implemented until all MVP items are complete.
5. Group discussed the previous sprint (Sprint 7). It was agreed that the sprint went well and that the sprint goal was met.
6. Group decided to use the following sprint goal for the upcoming Sprint 8: Finish the remaining MVP features, run user testing sessions and resolve the critical issues they reveal, and deploy a stable final release that demonstrates every MVP feature end to end on live data for the senior design committee.
